

Day 11: Project

Project description:

Dear data analyst, thank you for your last update. We know would like to bring the report in the cloud so that it can be shared with other people.

Please see our new requirements:

- 1) Create a new workspace called "Marketing" (or use "My workspace" if you are not using the Pro license)
- 2) Publish the report to that workspace.
- 3) Edit the report and remove the first three pages in the cloud.

Thank you,

The Marketing Department
